Clayton County Solicitor's Office

Newnan, GA

Victim Advocate

(Aug 2018 - Dec 2018)

- Organized data in digital case files
- Scrutinized videos to write detailed records of court cases

Projects

ChessWager

I contributed to an app designed to allow users to place real-time bets on live professional chess games. I was responsible for several menus in the custom header dropdown component. The most notable design I contributed was the user profile menu.

Soil Sensor

After a couple of plants died, I decided to do something about it. So I built a Raspberry Pi project that displays soil moisture readings on a webpage so I can know when to water my plants.

Task Tracker

In the pursuit of learning, I made a textbook React app that lets users create a list of tasks and reminders that persist on a Redis database after the app is powered off.

Education

Clayton State University

Graduated Dec 2018

Bachelor's in Cultural Studies & Workforce Leadership

4.0

- Graduated with honors
- Maintained Dean's list
